01 Welcome

Dear Colleagues,

On behalf of the faculty and organizers, it is a great privilege and honour to welcome you to the European Vascular Masterclass in Basel. For years, this unique workshop has proven to be a very effective postgraduate training method for vascular surgeons. The techniques demonstrated are part of the fellowship of the European Board of Vascular Surgery (FEBVS) exam. Its success is based on practical training on state-of-the-art infrastructure and intensive supervision by a multilingual team of European tutors. You will operate in pairs, using original vascular grafts, sutures, endovascular tools and abdominal and thoracic endografts.

Limited seats are available, so please register early. We hope you are as excited about the Basel workshop 2027 as we are, and look forward to meeting you there!
